

BITZER Web Light

Software for easy operation of truck scales

The software solution BITZER Web Light enables an efficient and comfortable registration and processing of weighing data. Profit from an intuitive user guidance and modern operating functions.

The screenshot shows the main interface of the BITZER Web Light software. It features a top navigation bar with options like 'Weighing', 'Processes', 'Data Administration', 'Misc', and 'Help'. The main area is divided into several sections: 'Vehicle' with license plate fields, 'Address' with name and street fields, 'Articles' with name and type fields, and 'Weights' with a table for recording measurements. A floating window titled 'DISOVIEW Anzeige: Fahrzeugwaage' displays a large weighing result of '22,34 t' along with additional data like 'e=0,02 t', 'Min 0,4 t', and 'Max 50 t'.

Main screen

Benefits:

- ▲ Intuitive user guidance, clear navigation and comfortable full-text search
- ▲ Responsive design suitable for all display sizes (PC, tablet, smartphone)
- ▲ Powerful **MS SQL database** guarantees data security and high availability
- ▲ Central server installation without local client installations for direct access via network

BITZER Web Light

Software for easy operation of truck scales

Features:

- ▲ Web-based weighing solution: operable via browser (PC, tablet and smartphone)
- ▲ Comfortable full-text search
- ▲ Easy master data management for addresses, articles and vehicles
- ▲ Intelligent operator management: individually definable display and sorting functions
- ▲ Useful analyses: Article, customer and carrier statistics
- ▲ CSV-Export for flexible data exports and analyses in EXCEL as well as data exchange
- ▲ Delivery note generation including flexible customized print formatting
- ▲ Quick and easy support via remote maintenance

The screenshot displays the BITZER Web Light software interface. It features a top navigation bar with options like 'Weighing', 'Processes', 'Data Administration', 'Misc', and 'Help'. The main area is divided into several panels:

- Process statistic:** Includes filters for 'From' (01.11.2018) and 'To' (05.11.2019), and an 'Export CSV' button.
- Article statistic:** Shows creation and report dates, and a 'Report' button.
- Vehicle (Fahrzeug) details:** Fields for license plate (H DD 4444), address (Müller, Musterstraße 1234, 1234, Musterstadt), and article (4711).
- Weighting table (Gewichte):**

Wägen	Typ	Datum	Zeit	Wert
1.	Wägen	02.11.2018	11:40:00	6,38 t
2.	Wägen	02.11.2018	11:40:00	32,72 t
Netto				26,34 t
- OSDVIEW Anzeige Fahrzeugwaage:** A large digital display showing '22,34 t' with 'e=0,02 t', 'Min 0,4 t', and 'Max 50 t'.

Statistics

Multilingualism

Options:

- ▲ Integration of legal for trade weight display (for Windows operating systems)
- ▲ Multilingualism
- ▲ Expandable to BITZER Web Professional or BITZER Web Agrar with additional modules
