

Mobile Truck Scale Above ground level - steel design

The **above-ground mobile truck scale** is a robust vehicle scale equally suitable **for rental** as well as **permanent installation**.

Minimal prerequisites from the customer's end (such as load-bearing surface like concrete) are required for the installation.

The scale is easily **deliverable** and **relocatable**.

Optionally, the scale can be operated using our modern bitzer web software.

Advantages

- Robust and easily transportable
- Assembly without crane on load-bearing ground
- Ring torsion load cells in stainless steel design, IP 68, for precise weighing results
- Conformity assessment - cost-effective and flexible without calibration office
- Modern weighing electronics with intuitive touch control and web-based user interface

Mobile Truck Scale Above ground level - steel design

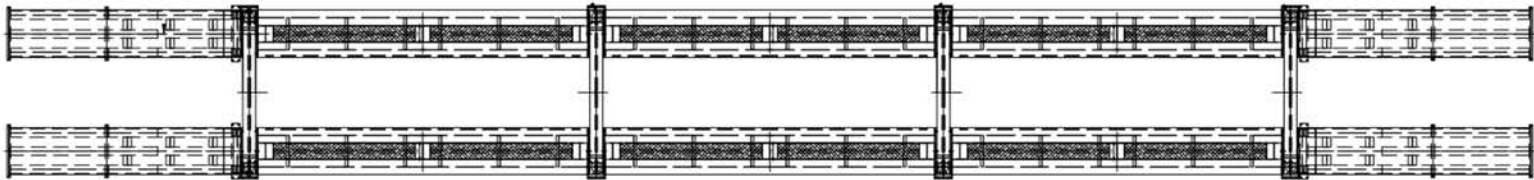

Technical data

- Total length: 6 m, 12 m oder 18 m
- Lane width: each with 0,8 m
- Total width: 2,80 m
- Total height: 0,31 m
- Capacity: up to 50 tons
- Resolution: 10 / 20 kg

Weighing electronic Coniq Control

Optional

- Connection to our software systems
- Integration of self-service terminals
- Mid-cover for weighing passenger cars
